Mario Maraldo, a racer for more than 50 years, in the GP-59 Baby Doll III.

Our most recent Rookie of the Year, Becky Wilson, age 14, and the Miss Circus Circus

The Marine Prop Riders club was established in 1951 to promote Inboard Hydroplane Racing in the Detroit area.

Our racers range in age from 14 to 70-ish, and represent at least seven classes of racing from the 1.0 litre class to the thundering, supercharged big-block powered Grand Prix hydros, as well as the Gold Cup Unlimited hydroplanes.

MPR members are involved in presenting a number of races in the region. Many members are drivers and others participate as fans, crew, race team owners, scorers, referees, rescue personnel, and event volunteers.

“Watching the race from the shore is fun, but being a part of the action is amazing! Whether you are an owner, crew member, or an avid fan, there are many ways you can get involved!”

Paul Poledink, a long time fan and new member, who recently acquired the vintage hydroplane “White Lightning”, CE-52.

We wouldn't be here without 'em!

- MPR meets monthly to discuss upcoming events and the latest happenings in the hydroplane world.
- We frequently have guest speakers or special items on the agenda.
- The meetings are always on the first Wednesday of the month.
- The locations are posted on the website.
- New members and guests are ALWAYS welcome at the meetings!
